

Construction Manager - Sydney

Ward Civil and Environmental Engineering is a highly respected, mid-tier civil contracting company which has a proven track record in the industry for more than 35 years. The company undertakes a diverse range of civil and environmental projects, for a long list of satisfied clients both within the private and public sectors. The company is committed to providing an experienced, innovative, professional and best practice management approach to all projects. The company has been recognised with many awards for both construction and environmental excellence.

Due to continued growth in the Sydney area we are looking to further strengthen our company with suitable enthusiastic and experienced personnel. We are currently seeking a Construction Manager with 10+ years experience to commence work on sites on sites within the Sydney, NSW region. You will be reporting directly to the Sydney Regional Manager.

Key responsibilities for this role shall include:

- Ensure project works are undertaken and documented in accordance with all OHS&E, QA, contractual and company requirements;
- Plan and co-ordinate works with project team and according to budget, program and project objectives;
- Comply and implement company procedures, policies and directives of Senior Management.

To be considered for this role the applicant must:

- Currently resides or be willing to relocate to the Sydney region;
- Have completed 10+ years post graduate professional experience preferably on general bulk earthworks, heavy pavements experience and civil infrastructure based projects;
- Proven leadership qualities and ability to oversee multiple projects at once.
- Demonstrate excellent written and verbal communication skills;
- Proven, impeccable project management skills with the motivation to develop these skills further.
- Ability to maintain excellent client relationships.
- Demonstrate a strong emphasis on program and planning works,
- Demonstrate a high understanding and regards for OHS&E requirements;
- Proven experience in the successful management of subcontractors to time and budget requirements.

You will have 10+ years experience in engineering and project management of projects. Tertiary education and eligibility to join the Institute of Engineers Australia is preferred.

We offer a varied project content and a competitive compensation/ benefits package commensurate with qualifications and experience.

If we are talking about you, please email your resume to Ward Civil & Environmental Engineering Human Resources: daniela.arias@wardcivil.com.au

Thank you for your application, please note that only successful candidates that meet the position requirements will be contacted
